

BBS Orientations

Each spring starting in early April and going through the first week of June we set up a series of orientation sessions in approximately 40 locations across the state. These sessions are for students who have been selected to attend Badger Boys State, their parents and any alternates that have been selected in case the delegate is unable to attend. This is important, because as we identify alternates who want to go to BBS we will work with our Alumni Association to secure sponsorships for them.

As of now we have set up the following locations. Please note, this is early in the year and many are not scheduled until February.
